

## Yarrow signs up for some Bug Magic

*Surrounded by the beautiful Karkloof hills and situated beside a wetland, Yarrow School is the latest school to join the Midlands Meander Education Project (MMAEP). Principal, Mr Mzwake Dlamini, had heard about the MMAEP activities from other local schools and being*

*really keen on ensuring that their Food Garden contributes fresh veggies to the daily feeding scheme, he approached the Bugs for assistance. Thatu UK, a network of people inspired by the initiative and hard work of many individuals and communities committed to developing a better future in South Africa, have agreed to fund MMAEP activities and set Yarrow on the road to sustainable self sufficiency. Jessica Dreamtime and Laila Smith handed the WWF/WESSA Eco-Schools Registration Certificate the Mr Dlamini last week.*
